Job Role – Team Lead – Recruiter

There has been a lot of news recently about how the top IT companies in India are on a hiring spree. With the increase in the number of e-commerce, internet and software companies and a growth spurt in the number of start-ups in IT space, there is a huge demand for engineers. With this, there is an increased demand for recruitment professionals too.

Requirements:

- Strong Knowledge of software technology
- Manage candidate's database
- End to end recruitment process
- Strong candidate's network
- Perfect written and spoken English, and extremely strong communication and people skills.
- 3+ years of recruitment experience, preferably from software product companies
- Experience recruiting for a variety of functions into technology
- Exceptional ability to multi-task and handle a high volume of clients
- Proven ability to operate in a fast-paced environment
- To excel at this position, you must be extremely intelligent, energetic, and proactive.
- You must be a self-starter with lots of initiative and creativity.
- Outstanding interpersonal and organizational skills.
